Introduction

"I love it when you call me..." That would be the lyrics to one of my favorite pop songs *Señorita* by Camilla Cabello and Shawn Mendes. *Señorita* was released on June 31, 2019 and it is the number 1 song on the billboard for 2019. Pop music is my favorite type of music.

Body Paragraph #1

transition word + example

First and most importantly, pop music is very entertaining. To illustrate my point, imagine being stuck in the car for 8 hours without wifi! Luckily, people have the radio and can listen to pop music to alleviate the boredom. Furthermore, pop music elevates the mood at parties due to the exposure it has on our generation. Overall, pop music diminishes boredom and sends out good vibes.

What comes to your mind when you hear about something that can be a friend at times or a nuisance, loves toys, and at times allergic to personal hygiene? An annoying sibling... close, but not quite. It's a dog! More specifically, most German Shepherds are used as police dogs or even in the military. My favorite pet is a German Shephard.
